### GENERAL TELEGRAMS.

Prisoners Strike for Palatable Food. CHRCAGO, May 1 .- Early this morning word was received by telephone that the Bridewell had been converted into a veritable bediam. The Amazon Hosiery Company employs most of the prisoners at the Bridewell, working them at knitting machines and looms, and paying thirty-five cents per day to the city for the services of each man. It appears that in the afternoon 150 of the prisoners serving the Hosiery Company struck for better food. They all quit work together, yowing to not return to their places until Warden Felton had promised to give them something palatable as well as digestible at their meals. For a time the men were threatening and but for the prompt action of the guards might have worked serious havoe with the machinery, if indeed they had not secured their liberty. After some parley ninety of the discontented convicts went back to their labors. The other sixty were then sent to their cells, and after they had been separated all those who held out seginst the last order to go to work were summarily "strung up." Not withstanding this, none of the prisoners confined in the main cell of the house slept during the night. All discipline over them in that quarter was gone, and they sang and shouted and made night hideous with their protests against the food and the treatment of the discontented sixty.

Stock Yard Bill-senatorial Vote. SPRINGFIELD, Ill., May 1 .- A bill of considerable interest to all stock growers in the Northwest has been passed by the House. It is a measure to regulate the charges of the Chicago Stock Yards for yardage, freight, grain, hay and other articles furnished, and to prevent extortionate and unjust discrimination. It provides, among other things, that the Stock Yards shall not receive for yardage more than fifteen cents per head for horses, cattle and mules, five cents for hogs and four cents for sheep, nor more than 50 per cant additional to the current market wholesale price for hay, straw, corn or other articles supplied by them for the sustenance of such animals, and that sales shall be made by actual weight. The penalty for collecting higher rates or unjust discrimination is a fine of not less than \$100 nor more than \$500 for a first offense and not less than \$300 nor more than \$1,000 for subsequent offenses. At present the yardage charge per head on cattle is fifty cents and the other articles in proportion.

Marmadake's Reply to Colonel Morse. Sr. Louis, May 1.—Governor Marmaduke, In reply to a letter from Colonel Morse, General Manager of the Stock Yards at Kansas City, asking him to call a special session of the Legislature to take action regarding pleuro-pneumonio, says that he does not consider it necessary to do so, and asserts that the plague is row practically suppressed, that it has not at any time been outside of Calloway County, and that official reports just made by competent authority express zhe belief that the disease is confined within a redius of of eight miles of Fulton, the point where it originated. The Governor further states that everything possible is being done to extirpate the plague and says he believes sufficient money will be raised by private subscription, and that the disease will be entirely eradicated within thirty days. The Governor also thinks that other States have acted very hastily and unwisely in quarantining against Missouri, and says he has been strongly urged to retaliate against them but will not do so, and will continue to use every means to suppress the plague

Bread or Blood Posters. CHICAGO, May 1 .- The dead walls of the city were covered with red paper posters bearing the word "Bread," yesterday. Som? one suggested that this was the sign for a Socialist uprising, and Parsons and Spies, two alleged leaders of the Anarchists, when nterviewed, mysteriouly informed the press that it was the first of three warnings from the "Revolutionary Committee," and that the third warning would be the sign for a great uprising. The discovery is made this morning that the red posters are simply a portion of an advertising scheme by a wellknown baker of this city.

It Can Cure

It is a fact that remedies almost without number, already contest the claim to cure all the ills that afflict suffering humanity. Thousands have found them powerless to work a cure for them. No diseases have so baffled all attempts at permanent relief as have Rheumatism and Neuralgia. A long succession of disappointments has made their agonized victims despair of the possibility of cure. For centuries they have been considered beyond the power of medical skill to cure. And yet we say both can be cured, and that ATRIOPHOROS will do the business. The best proof that it can do it is that it has done it.

Rev. S. R. Dennen, D.D., pastor Third Congregational Church, New Haven, Conn. Rheumatism had kept him from the pulpit four or five months at a time. He says he had suffered all that one could, and live. He took his first dose of ATHLOPHOROS on Friday; Sunday he was in his pulpit; Monday he was well, and has remained so since. Rev. William P. Corbit, D.D., pastor George St. M. E. Church, New Haven, Conn., was laid up for two months with Inflammatory Rheumatism, suffering most exeruciating torture. ATHLOPHOROS cured him, and he believes it to be infallible.

H. S. Chandler, of the N. Y. "Independent," says ATHLOPHOROS cured him of Rheuma-tism from which he had suffered for a year and a half. Rev. W. B. Evans, Washington, D. C., says: "I consider its work almost in the light of a miracle. It is a most wonderful medicine. It ought to be spread throughout the land."

The great question is, Will it cure me? We believe it will. Is it worth trying? You must decide.

If you cannot get ATHLOPHONOS of your druggist, we will send it express paid, on receipt of regular price—one dollar per bottle. We prefer that you buy it from your druggist, but if he hasn't it, do not be persuaded to try something else, but order at once from us as directed.
